CAREER OBJECTIVE

Proactive Cloud DevOps engineer with a passion for continuous learning & collaboration, bringing 3+ years of experience in designing, securing CI/CD pipelines and cloud infra. Eager to leverage my skills to enhance operational efficiency & streamline deployment processes, ultimately driving successful project outcomes. Looking to contribute to a dynamic team that values creativity and collaboration.

SKILLS

Cloud Platforms

- Azure (VMs, Virtual Networks, Gateways Firewall, Logic Apps, Storage, Log Analytics), AWS (EC2, S3)

Containerization

- Docker, Podman, Kubernetes

CI/CD & DevOps Automation

- Gitlab CI/CD Pipelines, Git, Jenkins, Nexus

IAC & Config Management

- Terraform (modular design, remote backend, state management), Ansible

Scripting & Automation

- Linux (Shell/Bash Scripting), Python, YAML

WORK EXPERIENCE

Mirae Asset Sharekhan Ltd, Navi Mumbai

Cloud DevOps Engineer

(Jun 23 - Present)

- Developed modular terraform code to automate Azure infrastructure provisioning for algorithmic trading projects, reducing manual setup efforts by 75%.
- Maintained hybrid cloud connectivity between on-premises data centre and Azure Cloud, administrating critical routing and network security via VPN Gateway, Firewall, NAT Gateway, NSGs and Route Tables, etc.
- Optimized Azure cloud costs by analysing cost & resource metrics to implement effective resource sizing and scheduling, reducing project cost by 60%.
- Deployed self-managed GitLab and built end-to-end CI/CD pipelines for Maven, .NET, Flutter, and Go workloads; integrated Ansible for deployment automation to accelerate release cycles by 40% while embedding SCA, SAST, DAST, and DAST API security scans.
- Orchestrated containerized workloads in Kubernetes, ensuring zero downtime deployments with high availability.

- Introduced automation in cost report generation using Python saving 45 hrs of productivity per month, automation in code migration from legacy SVN & TFS systems to Gitlab using Bash Scripting for more than 150 projects.

DevOps Intern

(Feb 23 – May 23)

- Automated server metrics collection using python script with PRTG and Dynatrace API.
- Developed a script to deliver maintenance alert mails to exchange eliminating manual efforts.

Celebal Technologies

Cloud Intern

(Jun 22 – Jul 22)

- Provisioned and managed Azure Infra including VMs, Managed Disks, VNet peering's etc.
- Designed and deployed Point to Site & Site to Site VPN Gateways, Hub & Spoke, Tier 3 Architectures.

EDUCATION

MIT Academy of Engineering, Pune (B.Tech – IT)

(2019-2023)

ACHIEVEMENTS

- Ranked in the top 5% in an engineering entrance exam.
- Published a research paper on voting system using Blockchain Technology - [Journal Link](#)
- Selected in Martian Program by Persistent Systems.
- Completed Cloud Challenges including - Google CloudReady Facilitator Program (3x), Microsoft Spring Challenge, Microsoft Build Cloud Skills Challenge etc.

CERTIFICATIONS

Azure Administrator Associate (Az – 104)

AWS Certified Cloud Practitioner

Azure Cloud Fundamentals (Az-900)

Azure AI Fundamentals (AI-900)
